## QUICK MEAL GASOLINE STOVES

Will Bake, Broil, Wash, Iron, Boil, Simmer, Roast and Toast much quicker and better than any coal or wood cook stoves. The distinctive feature of the "Quick Meal," the "takings" joint, which gives a large degree of control over its effects in much less time. It is covered from its effects in much less time. It is covered from its effects in much less time. There are no thumb-screws to turn to burn the fingers with, and to confuse people. The patent lever-valve is a "dead open and shut." When the little knob is pushed over to the word "Open" it is open, and when it is pushed to the word "Closed" it is closed, and no mistake. That is all there is to it. No one can use it.

Our instant "Safety Tank" attachment necessitates the extinction of every light before it can be filled with a fresh supply of Gasoline.

HIGH LONDON BY CANAL

That Runs Through the Heart of the Great City.

Mr. H. H. Morris.

London a few years ago

on the morning after his arrival

for which he had been proposed

for "the city."

The city is ex-

tra-magnate; "why, what do you call

we're in?" was two or three hours

ago when I reached the hotel.

The precise Englishman went on,

to say that "the city" was still a

city, and that he could go there

as a tourist.

Under the sun,

the houses, by

all, above the roofs, through the

air to the astonishment, expressed

in awe and native velveteen, of

Princes.

I fear that

trees of the Pacific

would have been unduly taxed

if told that he might pass from end

to end of a canal; and I am sure his

well as most Londoners, would have

surprise at it.

an unheeded and almost un-

run through the heart of Lon-

don in its quiet, unbroken ways, while

it has lost its all about him.

It is not so many years since pleasure

filled upon it; and, even now, char-

merised as it is, a trip along its

shores is a sport, not only to

those who may not be advanced in

the art of amusement to be found in learn-

ing of his own town, but even to the

latter by profession, who prides himself

highly knowing his beloved proving

ment's Canal is the last link in the

chain of England. By it the Mer-

leaves Paddington to Limehouse,

of eight miles, in which

several former bridges on roads,

at short intervals, to enable it to

descent of eighty-four feet. There

are basins and docks, some deep cuttings,

through the great ridge at Ising-

ammons, and a long cut.

The canal has a mean depth of

feet, is thirty feet in width at the

surface, to forty feet at the surface,

to forty-five feet at the bottom,

and from sixty-four to seventy feet

the whole inland navigation of the

canal stopped at Paddington. This ca-

naming of the name of one of the

Thames and its docks at

was begun October 14, 1832, and

opened for traffic August 1, 1833.

It's name from "the first gentleman in

the world" in its opening.

opening; an aquatic procession of boats

flaunting with streamers—flags fly-

where.

THE WESTERN WATCHMAN.

Councilman Blakely to Blossom Out as  
Editor and Proprietor.Proprietors are now in progress looking to the  
purchase of the Western Watchman, the Catholic  
organ in St. Louis. Mr. Wm. W. Blakely of the  
Globe Pickle Company. The appointment of Mr.  
M. H. Phelan Council to Halifax has put the paper  
in the market, and Mr. Blakely, it is said, is very  
anxious to secure it. Walter J. Blakely is  
very well known throughout the city. He was elected to the Council  
at the last election, and he has  
been one of the shining lights of St. Merv's  
Actions. This will be his first plunge into journalism,  
and those who know him best predict a very great  
success. The paper is the mouthpiece of the Watch-  
man the mouthpiece of the very fair Catholic  
movement in St. Louis, have a great deal of fun,  
genuine fun, and if you like to buy it, you can't  
get a better. The terms of transfer are not known  
as the trade has not reached a point where definite  
terms can be agreed upon. Details. It is a little  
doubt, however, that the paper will be sold,  
and that he will be the purchaser.Let the Good Work Go On.  
We desire to call attention to the good now being  
done by the Price Baking Powder Company in ex-  
posing the imposition that has been practised upon  
us for years in the making of adulterated baking  
powder. Influenza has been rampant among  
adulterators and ruined the stomachs of many an  
advertising family. No better proof of the purity  
and wholesomeness of Dr. Price's Cooking and  
Baking Powder can be offered than that it is recommended  
by the heads of the greatest universities of the coun-  
try and is used by the United States Government.

Our Cartoon to-day illustrates the easy method of Catching Fish with the RIGHT SORT of Bait, or, in other words, "Securing Patronage and Confidence Through the Legitimate Channels of Low Prices and Honest Values." The "FAMOUS" BEAR, during a recent fishing excursion, upon which occasion the BULL occupied the opposite bank of the stream, joined in the following dialogue:

FAMOUS BEAR: "Hello, Mr. Bull! What luck to-day? Catch anything?"

MR. BULL: "I've been fishing all day and can't get a bite; am using the HIGHEST-PRICE BAIT in the market, but they don't nibble worth a cent! How is it on your side of the stream?"

FAMOUS BEAR: "Everything is lovely over here; can't pull 'em out FAST ENOUGH. You see I use the RIGHT SORT OF BAIT—LOW PRICES and HONEST VALUES! They win every time."

The "Famous" Homeopathic Method of Small Profits and Low Prices is winning all around, and the grand rush of Busy Buyers and Satisfied Customers to our Suit Department daily is evidence of the fact that the "Famous" Bear is on the Top Limb of the Tree and will prove a tough customer for the Bulls to shake off.
